

# ASL ABCs intarsia charts

## Materials Needed:

Worsted weight yarn. I just used left over scraps to make each square.  
G Hook

Approximate finished size of each square: 10 inches by 13.25 inches.

## Notes:

Work each square using the crochet intarsia method in sc. There are quite a few useful videos on Youtube that you can check out for assistance if you've never done intarsia before.

You can sew or crochet these squares together using whatever method you find easiest. I chose to use the flat braid method. Since these aren't granny squares, I found that by joining in a corner with a sc, ch 3, sc in same corner, then (ch 3, sk 2 sts, sc in next) to the end of the row, then sc, ch 3, sc in last stitch of row worked very well. Continue to do this around each side of each square. From there, you can follow the directions for the flat braid crochet join as given. Here is a great tutorial:

The yarn I used for the skin tone was Red Heart Aran. I chose to carry the black and aran throughout the hand as I worked by crocheting over the top of the color not in use. I did not carry any yarn through the outer color surrounding each hand. Alternatively, you can use individual bobbins for each color change.

Once you've finished the entire blanket, you can crochet any border you'd like around the edges. Something simple such as shells will probably look nicest.

This is a free pattern. Please be sure to credit me if you share or sell any items made from this project. My Facebook page is <https://www.facebook.com/StorerBoughtCreations>, My Etsy shop is StorerBoughtCreation, and my Ravelry identity is jamiemonster83.

For the first and final squares, tape the two charts together to make reading the chart easier for the double squares if you're making the blanket as I have pictured. Alternatively, you can make four separate smaller squares to place in each corner instead of having two large blocks at the beginning and end.

My email is at the bottom of each chart. Please contact me if you have any questions regarding this pattern. Enjoy!
